

**ST. ANTHONY COMMUNITY HOSPITAL
2019 – 2021 COMMUNITY HEALTH NEEDS ASSESSMENT
IMPLEMENTATION PLAN**

NYS PREVENTION AGENDA PRIORITY AREA: PREVENT CHRONIC DISEASES

FOCUS AREA 1: Healthy Eating and Food Security

PREVENTION AGENDA GOAL 1.3: Increase food security

OBJECTIVE: By December 31, 2021, increase the percentage of adults with perceived food security by 5% from 75.6% to 79.4%. (Date Source: BRFSS, 2016)

EVIDENCE BASED INTERVENTIONS 1.3.6: Screen for food insecurity, facilitate, and actively support referrals (Sources: Feeding America; AARP)

DISPARITY ADDRESSED: People with low SES and low food security

Activities	Timeframe	Intermediate Level Evaluation Measures	Internal Staff and Resources	Community Implementation Partners	Intended Outcome/Product/Result	2020 Year-end Update
Develop standardized definition and screening questions for food security	January 2020-March 2020	Standardized questions in place to measure food security	St. Anthony Community Hospital (SACH) Administration, Bon Secours Charity Health System (BSHCS) Community Engagement, Dietician, Patient Advocate	Orange County Health Dept. Orange County Food Security workgroup	Ability to compare data across Orange County hospitals and service areas	Standardized Food Insecurity screening questions in place
Creation of internal practices to consistently screen for food security	January 2020-December 2021	Number of screenings for food security Number of referrals to supportive services	SACH Administration, Dietician, Patient Advocate	Orange County Health Dept.	Increased awareness about food security Increased number of food insecure residents connected to resources	Hospital dietician will screen each inpatient when referral sources are in place

<p>Create internal process for active connection to WIC and/or SNAP</p>	<p>April 2020-December 2021</p>	<p>Internal process for referrals adopted</p> <p>Number of connections to SNAP and/or WIC</p>	<p>SACH Administration, Case Management, Patient Advocate</p>	<p>Orange County WIC program</p> <p>Orange County Office for the Aging</p>	<p>Increased access to funds for healthy foods for both pediatric and senior populations</p>	<ul style="list-style-type: none"> • Due to Covid-19, there was a delay in implementation of formal screening by Dietician however Case Management staff continued the normal practice of making referrals to SNAP/WIC as patient needs arose • Hospital staff took part in learning session lead by Cornell Cooperative to ensure referrals can be made to the appropriate agency • OCDOH supplied a listing of agencies and access points

2019 – 2021 COMMUNITY HEALTH NEEDS ASSESSMENT
IMPLEMENTATION PLAN**

NYS PREVENTION AGENDA PRIORITY AREA: PREVENT CHRONIC DISEASES

FOCUS AREA 4: Preventive Care and Management

PREVENTION AGENDA GOAL 4.1: Increase cancer screening rates for breast, cervical, and colorectal cancers, especially among disparate populations in the cities of Newburgh, Middletown and Port Jervis

OBJECTIVE: By 12/31/2021, increase % of adults receiving breast cancer, cervical, and colorectal cancer screenings based on the most recent screening guidelines by 5%. (Baselines: 75.9% Breast Cancer Screening; 76.1% Cervical Cancer Screening and 68.5% Colorectal Cancer Screening; Data Source: BRFSS, 2016)

EVIDENCE BASED INTERVENTIONS:

4.1.2: Conduct one-on-one (by phone or in person) and group education (presentation or other interactive session) in a church, home, senior center or other setting (Source: The Community Guide)

4.1.3: Use small media and health communications to build public awareness and demand (Source: The Community Guide)

DISPARITIES ADDRESSED: Low SES concentrated in areas with high racial/ethnic minorities; Education level

Activities	Timeframe	Intermediate Level Evaluation Measures	Internal Staff and Resources	Community Implementation Partners	Intended Outcome/Product/Result	2020 Year-end Update
Conduct community education sessions about need for cancer screenings at local libraries, senior centers, and community events	March 2020-December 2021	Number of individuals reached through one-on-one or group education that were referred to health providers for cancer screenings Change in awareness of the importance of cancer screenings as a preventative measure	Bon Secours Medical Group (BSMG) Breast Navigator, BSCHS Community Engagement	BSMG providers Orange County Health Dept. (OCDOH)	Change in awareness of need for cancer screenings as part of preventative care Compliance with screening guidelines among individuals that were reached through one-on-one or group education Increase in the percentage of adults receiving cancer screenings	<ul style="list-style-type: none"> • Due to Covid-19, community education sessions were cancelled however, cancer screening awareness posters had previously been distributed in community. • “Don’t Delay Care” email blast sent in May and September 2020 to community contacts

<p>Develop consistent message across all entities to increase cancer screenings during awareness months for breast, cervical and colorectal cancers</p>	<p>June 2019- March 2020</p>	<p>Number and type of locations where posters were distributed</p> <p>Number of calls received about screening due to campaign</p>	<p>BSCH Radiology, BSCHS Community Engagement, BSMG</p>	<p>Orange County Health Dept.</p> <p>Orange County Cancer Prevention work group</p>	<p>Change in knowledge and awareness of need for cancer screenings</p>	<ul style="list-style-type: none"> • Breast, Cervical and Colorectal cancer screening awareness posters were developed in partnership with the Orange County Health Dept. and Orange County Community College graphic arts students. • 60 Posters were printed and distributed in the community. • Call volume was tracked by OCDOH
<p>Evaluate how patients have found cancer screenings through surveys (i.e. newspaper, mailings, flyers, word of mouth, social media or other)</p>	<p>December 2019- December 2020</p>	<p>Number of community members surveyed at community events</p> <p>Percentages of how patients found cancer screenings by media type</p>	<p>BSCHS Community Engagement</p>	<p>Orange County Health Dept.</p> <p>Orange County Cancer Prevention work group</p>	<p>Increased knowledge of how patients are learning about cancer screening services</p> <p>Ability to target areas and markets for greater impact and community awareness</p>	<ul style="list-style-type: none"> • BSMG representatives attended a community food distribution event in January 2020 to raise awareness of cancer screenings and promote the Cancer Services Program (CSP) free screening services. • 2 community members were connected to CSP. • In early spring, the CSP contract with the community provider ended. Due to Covid-19, new CSP coordination has not begun.

**ST. ANTHONY COMMUNITY HOSPITAL
2019 – 2021 COMMUNITY HEALTH NEEDS ASSESSMENT**

IMPLEMENTATION PLAN

NYS PREVENTION AGENDA PRIORITY AREA: PREVENT COMMUNICABLE DISEASES

FOCUS AREA 3: Sexually Transmitted Infections (STIs)

PREVENTION AGENDA GOAL 3.1: Reduce the annual rate of growth for STIs

OBJECTIVE #1: By December 31, 2021, reduce the annual rate of growth of chlamydia by 50% from 2.17% to 1.09%. (Baseline Data: 2016-2018 average 3-year percent change)

OBJECTIVE #2: By December 31, 2021, reduce the annual growth rate for gonorrhea by 50% from 4.0 to 2.0% (Baseline Data: 2016-2018 average 3-year percent change)

OBJECTIVE #3: By December 31, 2021, reduce the annual growth rate for early syphilis by 50% from 20% to 10% (Baseline Data: 2016-2018 average 3-year percent change)

(Data source: NYSDOH Communicable Disease Electronic Surveillance System (CDESS), 2016-2018)

EVIDENCE BASED INTERVENTION 3.1.2: Increase STI testing and treatment (Source: CDC)

DISPARITY ADDRESSED: People with low education level and/or low SES

Activities	Timeframe	Intermediate Level Evaluation Measures	Internal Staff and Resources	Community Implementation Partners	Intended Outcome/Product/Result	2020 Year-end Update
<p>OCDOH to provide in-person education to hospital Emergency Department Medical and Nursing staff</p> <p>Increase STI screening, testing and treatment in Emergency Department</p>	August 2019-December 2021	<p>Number of patients tested for chlamydia, gonorrhea, and syphilis</p> <p>Number of patients positive for chlamydia, gonorrhea, and/or syphilis</p> <p>Number of patients diagnosed with chlamydia, gonorrhea, and/or syphilis</p>	SACH Administration, BSCHS VP of Medical Affairs, BSCHS SVP of Mission, SACH Medical Staff, Emergency Dept. staff, BSCHS Community Engagement	Orange County Health Dept.	<p>Increased STI screening/testing in Emergency Department (ED)</p> <p>Increase in the number of patents with suspected STIs given prescription medication upon discharge from ED</p>	<ul style="list-style-type: none"> • OCDOH provided remote education to ED providers on the rate of STI growth and need for increased verbal screening and clinical testing • From Jan. through Sept. 2020: <ul style="list-style-type: none"> ○ 17 patients were tested ○ 0 positive results
